PROFESSIONAL SUMMARY

Entry-level Cloud and Network Support candidate with hands-on experience in Linux, networking, and AWS fundamentals (EC2, VPC, IAM, S3). Currently enrolled in a Cyber & Cloud Security training program and preparing for AWS Solutions Architect – Associate. Seeking Cloud Support, NOC, or Infrastructure roles.

TECHNICAL SKILLS

Cloud & Systems

AWS (EC2, VPC, IAM, S3), Linux (Ubuntu, CLI, networking basics)

Networking

TCP/IP, Subnetting, VLANs, Inter-VLAN Routing, NAT, DHCP, Wireshark packet analysis

Security

Network segmentation, perimeter filtering, ACLs, basic monitoring

Tools

Git, GitHub, Cisco Packet Tracer, Kali Linux

PROJECTS

Office Network Infrastructure – Small Business Network

Designed a 5-VLAN segmented office network (HR, IT, Finance, Security, Guest) with inter-VLAN routing, NAT, ACLs, and Layer-2 security (DHCP snooping, port security); documented IP scheme and traffic flows.
